## Skills Summary

- Languages: HTML5, Tailwind CSS, JavaScript, Java, Python
- Frameworks & Libraries: React.js, Vue.js, Angular, Next.js, Express.js, Bootstrap, Node.js, SQL, NoSQL(MongoDB)
- Tools & Deployment: Github, VS Code, Netlify, Vercel, Render, AWS, Google Cloud, Azure, Docker
- Platforms: Windows
- Soft Skills: Leadership, Problem Solving, Time Management

## Experience

### Cyber Security Virtual Intern

Completed Deloitte Cyber Security Virtual Experience Program: simulating real-world client projects.

- Performed risk analysis and engaged in simulated threat detection and incident response exercises.
- Identified system vulnerabilities and proposed mitigation strategies aligned with industry standards

Deloitte  
June 2025

### Full stack web development Training

- Completed hands-on training in Full Stack Web Development, building end-to-end web applications using React, Node.js, Express, and MongoDB.
- Implemented REST APIs, authentication, database operations, and deployed applications following industry-standard development practices.

Substring technologies  
Sep 2025

## Projects

### Awaze-e-janta-A Complaint app(Link)

- Developed a full-stack web application that allows users to register, submit, track, and manage complaints through a centralized platform.
- Implemented user authentication, role-based access (user/admin), complaint status tracking, and secure data storage using React, Node.js, Express, and MongoDB.

oct 25-26

### budgetbuddy-An Expense app(Link)

- Developed a full-stack Expense Management web application using the MERN stack (MongoDB, Express.js, React.js, Node.js). Implemented secure user authentication with JWT, CRUD operations, and real-time expense tracking. Integrated responsive UI, RESTful APIs, and MongoDB database for efficient data management and seamless user experience.

sept 25

### Portfolio Website-(Link)

- Using HTML, Tailwind CSS, Matter.js, Javascript and Additional tools & NPM for package management (Tailwind setup), VS Code for development, GitHub for starter files, inspiration from existing portfolios like Riccardo Zanutt's custom domain deployment, and optimization techniques e.g., disabling animations on mobile for performance.

July 25

## ACTIVITIES

- Secured 9th rank in the Ultimate Aptitude Challenge on Unstop, organized by AptiQuest – Goel Institute of Technology and Management, Lucknow.

Attended a Technical Workshop organized by Barownz Learning Academy focusing on emerging technologies and industry skills.:.

## ADDITIONAL

- Coding platform: GeeksforGeeks: Coding practice and problem-solving. Leetcode : Algorithm Challenges, CodeChef : coding contests and Challenges.

- Certifications: Completed Deloitte's Cyber Security Virtual Experience Program, simulating real-world consulting scenarios. Performed risk assessments, threat identification, and incident response planning. Received certification upon successful completion of all assigned modules and tasks.

- Language: Hindi, English
